ATTENTION

THIS ELLIPTICAL IS INTENDED FOR **RESIDENTIAL USE ONLY** AND IS WARRANTED FOR THE APPLICATION. ANY OTHER APPLICATION **VOIDS** THIS WARRANTY IN ITS ENTIRETY.

Before returning your Sole product to any retailer, or if you require any assistance with assembly or technical support please call us first for assistance at 866-780-7653. Thank you for your Sole purchase.

SOLE

FITNESS

CONGRATULATIONS ON YOUR NEW ELLIPTICAL AND WELCOME TO THE SOLE FAMILY!

Thank you for your purchase of this quality elliptical from **SOLE**. Your new elliptical has been manufactured by one of the leading fitness manufacturers in the world and is backed by one of the most comprehensive warranties available. **SOLE** will do all we can to make your ownership experience as pleasant as possible for many years to come.

If there is a question as to where to obtain service, contact our service department at **866-780-7653**.

Please take a moment at this time to record below the name of the dealer, their telephone number, and the date of purchase for easy contact in the future. We appreciate your confidence in **SOLE** and we will always remember that you are the reason that we are in business. Please complete and mail your registration card today and enjoy your new elliptical.

Yours in Health,
SOLE Fitness

The self-addressed product registration card must be completed in full and returned to **SOLE**.

You can also go to **www.soletreadmills.com** under the support tab to register online.

IMPORTANT SAFETY INSTRUCTIONS

WARNING - Read all instructions before using this appliance.

DANGER - To reduce the risk of electric shock disconnect your SOLE elliptical from the electrical outlet prior to cleaning and/or service work.

WARNING - To reduce the risk of burns, fire, electric shock, or injury to persons, install the elliptical on a flat level surface with access to a 115-volt, 15-amp grounded outlet with only the elliptical plugged into the circuit.

DO NOT USE AN EXTENSION CORD UNLESS IT IS A 14AWG OR BETTER, WITH ONLY ONE OUTLET ON THE END: DO NOT ATTEMPT TO DISABLE THE GROUNDED PLUG BY USING IMPROPER ADAPTERS, OR IN ANY WAY MODIFY THE CORD SET.

A serious shock or fire hazard may result along with computer malfunctions. See Grounding Instructions, page 3.

- Do not operate elliptical on deeply padded, plush or shag carpet. Damage to both carpet and elliptical may result.
- Keep children under the age of 13 away from this machine. There are obvious pinch points and other caution areas that can cause harm.
- Keep hands away from all moving parts.
- Never operate the elliptical if it has a damaged cord or plug. If the elliptical is not working properly, call your dealer.
- Keep the cord away from heated surfaces.
- Do not operate where aerosol spray products are being used or where oxygen is being administered. Sparks from the motor may ignite a highly gaseous environment.
- Never drop or insert any object into any openings.
- Do not use outdoors.
- To disconnect, turn all controls to the off position and then remove the plug from the outlet.
- Do not attempt to use your elliptical for any purpose other than for the purpose it is intended.
- The hand pulse sensors are not medical devices. Various factors, including the user's movement, may affect the accuracy of heart rate readings. The pulse sensors are intended only as exercise aids in determining heart rate trends in general.
- Wear proper shoes. High heels, dress shoes, sandals or bare feet are not suitable for use on your elliptical. Quality athletic shoes are recommended to avoid leg fatigue.
- This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS - THINK SAFETY!

IMPORTANT ELECTRICAL INSTRUCTIONS

WARNING!

NEVER remove any cover without first disconnecting AC power.

If voltage varies by ten percent (10%) or more, the performance of your elliptical may be affected. **Such conditions are not covered under your warranty.** If you suspect the voltage is low, contact your local power company or a licensed electrician for proper testing.

NEVER expose this elliptical to rain or moisture. This product is **NOT** designed for use outdoors, near a pool or spa, or in any other high humidity environment. The operating temperature specification is 40 to 120 degrees Fahrenheit, and humidity is 95% non-condensing (no water drops forming on surfaces).

GROUNDING INSTRUCTIONS

This product must be grounded. If the elliptical should malfunction or breakdown, grounding provides a path of least resistance for electric current, reducing the risk of electric shock. This product is equipped with a cord having an equipment-grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

DANGER - Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the product is properly grounded. Do not modify the plug provided with the product if it will not fit the outlet; have a proper outlet installed by a qualified electrician.

This product is for use on a nominal 110-volt circuit, and has a grounding plug that looks like the plug illustrated below. A temporary adapter that looks like the adapter illustrated below may be used to connect this plug to a 2-pole receptacle as shown below if a properly grounded outlet is not available. The temporary adapter should be used only until a properly grounded outlet, (shown below) can be installed by a qualified electrician. The green colored rigid ear-lug, or the like, extending from the adapter, must be connected to a permanent ground such as a properly grounded outlet box cover. Whenever the adapter is used, it must be held in place by a metal screw.

IMPORTANT OPERATION INSTRUCTIONS

- **NEVER** operate this elliptical without reading and completely understanding the results of any operational change you request from the computer.
- Understand that changes in resistance and incline do not occur immediately. Set your desired resistance level on the computer console and release the adjustment key. The computer will obey the command gradually.
- **NEVER** use your elliptical during an electrical storm. Surges may occur in your household power supply that could damage elliptical components. Unplug the elliptical during an electrical storm as a precaution.
- Use caution while participating in other activities while using your elliptical; such as watching television, reading, etc. These distractions may cause you to lose balance; which may result in serious injury.
- Always hold on to a handle bar while making control changes (incline, level, etc.).
- Do not use excessive pressure on console control keys. They are precision set to function properly with little finger pressure. If you feel the buttons are not functioning properly with normal pressure contact your **SOLE** dealer.

POWER CONNECTOR - FRONT, LEFT SIDE OF UNIT

TRANSPORT INSTRUCTIONS

The elliptical is equipped with two transport wheels which are engaged when the rear of the elliptical is lifted.

ASSEMBLY TOOLS

E35 ASSEMBLY INSTRUCTIONS

PRE-ASSEMBLY

1. Use a razor knife or box cutter to cut the outside, bottom, and the edge of the box along the dotted Line. Lift the box over the unit and unpack.
2. Carefully remove all parts from carton and inspect for any damage or missing parts. If damaged parts are found, or if parts are missing, contact your dealer immediately.
3. Locate the hardware package. Remove the tools first. Remove the hardware for each step as needed to avoid confusion. The numbers in the instructions that are in parenthesis (#) are the item number from the assembly drawing for reference.

E35 ASSEMBLY INSTRUCTIONS

1 INCLINE RAIL & CONSOLE MAST

HARDWARE STEP 1

- #126. 3/8" x 3/4" _Hex Head Bolt (2 pc)
- #127. 3/8" x 2-1/4" _Hex Head Bolt (4pc)
- #131. 3/8" x 3/4" _Socket Head Cap Bolt (4 pcs)
- #136. M5 x 10m/m_ Phillips Head Screw (2 pcs)
- #165. Ø3/8" x Ø19 x1.5T_ Flat Washer(10 pcs)
- #169. Ø10 x 2T_ Split Washer (10 pcs)
- #195. Ø10_Star Washer (4 pcs)

1. Install 6pcs Adjustment Feet(90) to the Front Stabilizer and Middle Stabilizer of the Main Frame (1) and the Rear Stabilizer of the Incline Rail Assembly(2).
2. Install the Incline Rail Assembly(2) into the U-channel bracket of the Main Frame (1). Secure with the four bolts & associated hardware as follows: From the sides install 4pcs Hex Head Bolts (127) with 2pcs Hex Head Bolts (126) **(NOTE: Please DON'T Tighten All Screws.)**, 6pcs Split Washers (169) 6pcs Flat Washers (165) and 4pcs Star Washers(195), as shown in figure 1, and tighten with Wrench (178). **(Please Tighten All Screw After All Components Assembly Complete)**
3. Connect the 3 wire harness: Incline Motor Power Cord (48) to the female receiver cable coming from the Incline Rail Assembly(2). Connect the Three pin position Sensor connector:Incline Motor Connecting Wire (49) to the female receiver coming from the Incline Rail Assembly(2)
4. Run the Computer Cable(50) through the Console Mast (12), pull the opposite end of this twist tie up through the Console Mast (12) until the cable exits the top. Install the Console Mast (12) into the receiving bracket on the top of the Main Frame (1). Install 4pcs Socket Head Cap Bolts (131) with 4pcs Split Washer(169) , 4pcs Flat Washers (165) and tighten with the provided L Allen Wrench (177). Pull slightly on the computer cable at the top of the mast while installing. This will ensure the cable does not get pinched and shorted during console mast assembly.
5. Install the Bottle Holder (92) to the Console Mast (12) with 2pcs Phillips Head Screws (136) and tighten with the provided Phillips Head Screw Driver. (176).

2 LOWER HANDLE BAR ARMS

#122. 5/16" × 15mm_
Hex Head Bolt (10 pc)
#123. 5/16" × 1-1/4"_
Hex Head Bolt (2 pc)
#136. M5 × 10mm_
Phillips Head Screw (4 pc)
#149. 5/16" × 7T_
Nylon Nut (2 pc)
#160. Ø5/16" × Ø20 × 1.5T_
Flat Washer (6 pc)
#162. Ø5/16" × Ø23 × 3T_
Flat Washer (4 pc)
#164. Ø8.5 × Ø26 × 2.0T_
Flat Washer (2 pc)

1. Align the plate of Left Connecting Arm **(8)** and the foot pad axle of Left Pedal Arm **(6)**, then put in it. Secure the Fixing Axle **(25)** with 2pcs Flat Washer **(162)**, 2pcs Hex Head Bolt **(122)** by using Wrench **(179)**. Same way to secure Right Connecting Arm **(9)** on the Right Pedal Arm **(7)**.
2. Install the left and right Lower Handle Bars **(10)** **(11)** onto left side and right side of Console mast shafts, respectively and secure with Hex Head Bolts **(122)** together with Flat Washers **(164)** by using Wrench **(179)**.
3. Untie the rod end bearing on left Connecting Arm **(8)**. Insert Hex Head Bolt **(123)** through the rod end bearing bracket on Swing Arm **(10)** and use wrench **(178&179)** to tighten together with Flat Washer **(160)** and Nylon Nut **(149)** in the rod end bearing bracket on left Swing Arm. Fix right Swing Arm **(11)** and right Connecting Arm **(9)** with the same way and hardware.
4. Run the Handle Wire, Incline **(62)** from Left Handpulse Assembly **(15)** through the left round hole of the console mast, and pull out Handle Wire, Incline **(62)** to the top from console mast. Secure to the console mast left side with 2pcs Hex Head Bolt **(122)** and 2pcs Flat Washer **(160)** by using Wrench **(179)**. Same way to run the Handle Wire, Resistance **(61)** from Right Handpulse Assembly **(16)** through the right round hole of the console mast, and pull out Handle Wire, Resistance **(61)** to the top from console mast, and secure to the console mast right side.
5. Plug all of the connectors into the back of the console; Computer Cable **(50)**, Handle Wire, Resistance **(61)** and Handle Wire, Incline **(62)**. Secure the Console **(45)** on the console mounting plate with 4pcs Phillips Head Screws **(136)** by tightening them with Phillips Head Screw Driver **(176)**.

E35 ASSEMBLY INSTRUCTIONS

3 UPPER HANDLE BAR ARMS

HARDWARE STEP 3

- #124. 5/16" x 1-3/4" _
Hex Head Bolt (6 pcs)
- #149. 5/16" x 7T _
Nylon Nut (6 pcs)
- #168. Ø8 x 23 x 1.5T _
Curved Washer (4 pcs)

1. Insert left Top Handle Bar (**19**) onto left Lower Handle Bar and secure with 3pcs Hex Head Bolts (**124**), 2pcs Curved Washers (**168**) and 3pcs Nylon Nuts (**149**) by using 2 Wrench (**179&178**) &. Same way to secure right Top Handle Bar (**20**) on right Lower Handle Bar.

E35 ASSEMBLY INSTRUCTIONS

4 PLASTIC PARTS

The diagram illustrates the assembly of plastic parts. Part 106 is shown being inserted into a slot. Part 139 is shown being inserted into a slot. Part 110 is shown being inserted into a slot.

HARDWARE STEP 4

#136. M5 × 10mm_ Phillips Head Screw (18 pcs)
#139. 3.5 × 12mm_ Sheet Metal Screw (10 pcs)
#141. M6 × 10mm_ Phillips Head Screw (4 pcs)

1. Match the Connecting Arm Covers (**L**) and (**R**), (**110**) and (**111**), on Connecting Arm (**L**) (**8**) and secure with 2pcs Phillips Head Screws (**136**) and a Sheet Metal Screw (**139**) by using Short Phillips Head Screw Driver (**175**). Repeat for the other side.
2. Install Slide Wheel Covers (**95**) above each side of the Slide Wheel , Urethanes and secure with 4pcs Phillips Head Screws (136) by using Phillips Head Screw Driver (**176**).
3. Use 2pcs Phillips Head Screws (**136**) to secure Front Stabilizer Cover (**112**) on the front stabilizer with Phillips Head Screw Driver (**176**).
4. Install the Cover Holders (**23**), with the hole for mounting the plastic cover on the bent tab facing rearward, and secure them on the Incline Rail Assembly(**2**) with 4pcs Phillips Head Screws (**141**). Install the Inclinable Rail Cover (**115**) on the rail base with 2pcs Phillips Head Screws (**136**). Secure Rear Bar Cover (**116**) on the Rear Stabilizer and the Cover Holders (23) with 4pcs Phillips Head Screws (**136**) by using Phillips Head Screw Driver (**176**).
5. Secure Bottom Cover (**113**) on the Incline Rail Assembly(**2**) with 4pcs Phillips Head Screws (**136**) by using Phillips Head Screw Driver (**176**).
6. Install the Handle Bar Covers (**106 & 107, 108 & 109**) over the Handle Bar axle connections and secure with 4pcs Sheet Metal Screws (**139**) by using Phillips Head Screw Driver (**176**).
7. Match right and left Console Mast Cover (**100 & 101**). Install the covers with 4pcs Sheet Metal Screws (**139**) to the Console Mast (**12**).
8. Plug in both Oval End Caps (**76**) onto both ends of the stabilizer tube.

ELLIPTICAL FEATURES

ADJUSTABLE FOOT PEDAL

To adjust the three footpad angle settings, pull the red quick release handle, located under each footpad, towards the rear. The lowest setting will set the footpads at zero (0) degrees, or flat, at the bottom of the elliptical stroke. The second position sets the footpad to five (5) degrees and the top position sets the footpads to ten (10) degrees.

INCLINE ADJUSTMENT

The E35 has an incline feature that will further increase the variety of your workouts. When the incline is at its lowest position you get a normal elliptical workout. As the incline increases you will feel your knees rise higher with each step; which means you are involving more muscle fibers, due to the increased range of motion.

The E35 has a computer controlled power incline. The power incline can be controlled by the buttons on the console or the swing arms. It will automatically adjust via the incline motor when you exercise using the built-in workout program.

Charge Portable Devices with Type-C Port

Type-C Port Charging function:

Charge your personal device during your workout using the fitness equipment's on-console **Type-C** port.

To charge your mobile electronics make sure the fitness equipment power is on.

Step 1: Connect your **Type-C** charging cable (not included) to the **Type-C** Power Port and to your device.

Step 2: Check to make sure your device icon indicates it is charging.

NOTE :

* Type-C charging cable is not included, make sure compatible Type-C charging cable is being used.

** Your device "charging" icon may or may not indicate it is charging.

Depending on the amount of current your particular device requires for charging the icon may not be on but your device is still charging, but possibly at a lower charge rate.

***The Type-C port on the console is capable of powering Type-C devices. It provides up to 5Vdc/1.5A amp of power. You will not be able to save your workout data to a Type-C via this port; it is used for charging purposes only.

OPERATION OF YOUR ELLIPTICAL

GETTING FAMILIAR WITH THE CONTROL PANEL

E35 CONSOLE

POWER UP

When power is connected to the elliptical, the console will automatically power up. This model is connected directly to 115 VAC and there is a power switch located where the line cord plugs into the unit on the left side near the front.

****ATTENTION****

SLEEP MODE Your console comes in "Sleep mode" with different features by choice:

ON The unit goes energy-saving state after 15 minutes of inactivity.

OFF The console will stay lit while the power is on.

RETAIL The console will run the demo video after 3 minutes of inactivity.

On TFT displays, click "Sleep Mode" under Settings to switch among three features.

New SOLE + App to be used in conjunction with select Apple & Android devices!

In order to help you achieve your exercise goals, Sole has added an exciting new feature to this product. Your new exercise machine comes equipped with a Bluetooth® transceiver that will allow it to interact with compatible iOS and Android smartphones or tablet computers via the SOLE+ App.

Just download the free SOLE+ App from the Apple Store or Google Play, and follow the instructions in the App to sync with your exercise machine.

The Sole+ App also allows you to sync your workout data with one of many fitness cloud sites we support: Apple Health, Google Health Connect, Strava, or MapMyFitness, with more to come.

Syncing the App with your exercise machine:

After downloading the App, make sure Bluetooth® is enabled on your device, then tap the icon at the top right corner to search for Sole equipment.

After the equipment is detected, tap Connect. When the App and equipment are synced, Bluetooth® icon on the equipment's console will light up. You may now start using your new Sole product!

Exercise equipment's Bluetooth device can also be connected to Bluetooth wireless heart rate chest strap transmitter. Chest Strap transmitter can still connect the exercise equipment even though the App has already been connected with the exercise equipment.

The exercise equipment can also play music wirelessly via Bluetooth. Turn on your mobile phone or tablet's Bluetooth function. Search for the name "BT-Speaker" in your device's Bluetooth menu. Tap to connect. Now your device can transmit music to the exercise equipment.

TOUCHSCREEN OPERATION

Use the touchscreen console to select from a variety of video classes, preset workout programs, and fitness tests; to enjoy media content while on the go; and to take part in virtual fitness events.

Getting Started

Launched for the first time, the console will prompt you to either enter as a guest, or create a new profile. It is recommended to set up your own profile: it allows your machine to remember your physical parameters, favorite programs and templates; you will have your own custom program with an adjustable intensity pattern, and your workout records can be synchronized with the SOLE+ mobile app. Tap **+** to create a new profile. A maximum of 9 profiles can be created. Each profile can be protected with a passcode.

To link a SOLE+ account, scan the QR code on the console screen to download the mobile app first. Once the app is installed and the registration is complete, open the QR code scanning camera in your SOLE+ app, and scan the second QR code to link your local profile with the SOLE+ account. Please keep in mind that your console profile cannot be linked to multiple SOLE+ accounts at the same time. If you skip this step, you can access it again later in Profile settings.

Home

The **Home** screen displays an overview of your activity, and offers shortcuts to an immediate start, a manually controlled timed workout, your favorite programs and video classes, and club events you currently take part in or might be interested to join.

If in the Guest mode, you can set your age and weight here; it will help the machine calculate your workout summary more accurately.

The blocks displayed on this page are customizable. Press "Edit Home" to configure a layout that suits your preferences. You can enable or disable optional blocks and change their order.

Videos

Access video classes by selecting the “Videos” tab of the bottom navigation bar.

Video classes are pre-recorded manually controlled workouts of fixed duration. Choose from hundreds of videos of 7 activity types, including Elliptical, Yoga, Stretching, Boxing, Sculpt, Meditation and Full Sweat. For easier search, filter classes by instructor, duration, difficulty level, etc.

The additional tab menu on the top of the page features Collections. These are sequences of video classes, that follow a certain theme.

Programs

Access preset programs by selecting the “Programs” tab of the bottom navigation bar.

Tap on any of the program cards to open a Program Setup page, where you can learn more about the program and set properties of your workout. To adjust workout parameters, you can drag the ruler, tap on the **+** and **-** buttons, or tap on the number to open a numpad and input the value directly.

Manual program is a timed workout with resistance and incline controlled manually at any time during the workout.

Hill, Fatburn, Cardio, Strength and **Interval** follow preset resistance and incline changing patterns. The Total Time and Max Resistance settings define the duration and overall intensity of your workout.

HIIT is a customizable interval program where you can manually choose the duration and resistance of the sprint and rest intervals, as well as the total number of intervals.

Heart Rate program uses incline to control your heart rate. The incline gradually increases until you reach your target heart rate, then adjusts automatically to keep you within 5 bpm of your goal. A heart rate monitor is required for this program.

On the program setup page, you can either set the target bpm directly or select 60% or 80% of your age-predicted maximum heart rate, allowing the machine to calculate your target automatically. Choosing the second option, make sure you have let the machine know how old you are, otherwise the calculations will be based on the default values. The program is finished when the time is up, or if your heart rate is 20% higher than the target.

Custom is a program with fully customizable resistance and incline patterns. On the program setup page, press “Add Pattern” to enter edit mode. Connect dots to map your load throughout the program, from easiest on the bottom to hardest on the top. Each segment’s duration depends on the selected total time — you can set it right before start.

Resistance values are relative, and maximum can be changed before each workout; all the segments will be adjusted proportionally. Incline values are absolute and can be set directly. Incline pattern is optional.

Fitness test is also available on the Programs page. Tap on the test card to open the test setup page. Please make sure that the physical parameters displayed on this page are correct: this data may affect the course of the test and its results; if the data is not accurate, press “Edit Parameters” to adjust the numbers.

Before the test,

- make sure you are in good health; check with your physician before performing any exercise if you are over the age of 35 or have any pre-existing health conditions;
- make sure you have warmed up and stretched before taking the test;
- do not take in caffeine before the test.

The additional tab menu on the top of the page features **Templates**. Templates are preset programs with a preserved set of parameters. Programs can be saved as templates upon completion, or you can create one from scratch in the Templates tab: tap on the “New Template” button, choose your base program, then save it with adjusted properties. A maximum of 12 template programs can be stored. To remove the unwanted templates, press “Edit” in the Templates tab.

Once you have decided on the program, press the “Start This Program” button on the screen, or the physical “START” key on the machine to begin your workout.

Favorites

Any class, collection or program can be labeled as a **Favorite**. Up to 12 favorite programs will appear on the Home page for easier access. To “like” a program, open the program setup page and tap on the “ribbon” icon in the upper left corner of the screen. Manage previously labeled programs on the Favorites page, that can be accessed from the Home page or the user Profile page. To remove the label, un-tap the “ribbon” icon.

History

To see your latest workout records, press “History” on the Home page. Up to 10 records can be stored locally on the console, but you can access your full workout history if you link your profile to the SOLE+ mobile app. Tap on the record preview to see the full summary.

Workout Mode

Once the workout has started, after the short countdown the console will appear in its workout mode. Warm-up and cool down phases may be skipped by pressing “Skip”.

During the workout, switch between **Stats (Focus)**, **Charts** and **Track** views to check on your workout progress; go to the **Media** section to enjoy your favorite media content; or open **Garmin** to observe your Garmin smart watch real-time data. In the Focus view, you can select parameters you would like to display by tapping on any of the number blocks.

Use side control panels or physical keys to adjust resistance and incline. Stop anytime by pressing the physical “STOP” key or tapping on the red pause button in the bottom right corner of the screen. After 5 minutes of inactivity in the Pause mode, the workout will end automatically.

Media

On the Home page, choose from a variety of pre-installed **Apps**, or use the **Mirroring** function to cast the content from your smartphone directly to the console screen.

Once the content is on, use the bottom panel for navigation and view settings.

Switch between the three view layouts, depending on the amount of information you prefer to see while working out:

- ☒ full interface (status bar, control panels, real-time stats);
- ☐ partial interface (status bar, real-time stats);
- ☐ minimal interface (full-screen content with all the panels hidden).

Follow the same logic while watching video classes. You can navigate through the video by sliding on the progress bar, or skip 10-second intervals by pressing ⏮ and ⏭ icons. The “Pause” button pauses both your workout and the video at the same time.

Club

Access community challenges by selecting the “Club” tab in the bottom navigation bar. Here, you can find events, created by other members of the SOLE community. To view all available events, your profile must be linked to your SOLE+ account.

Shared goals are challenges with a predefined target score, which must be achieved within a limited time period in order to complete the challenge.

Rankings are competitions in which users try to earn the highest score possible within a limited time period in order to defeat as many competitors as possible.

The score can be represented by one of the following focus parameters: calories, distance, active time and workout count.

To search for particular events more easily, press the “filter” icon in the upper menu and filter items by format, duration and focus parameter.

Join private events by using the “Join via ID” function. Enter the event ID that was shared with you by the creator of the event, and you will automatically become a participant.

Create your own challenges by pressing the **+** icon in the upper menu. Here, you can choose event format, focus parameter, set dates, event name and optional description for your challenge. Your event can be private or public depending on your preferences.

By joining your first event, you agree to share your username, profile image, and workout data (such as workout dates, distances, active time, and calories) with other participants.

HEART RATE PROGRAMS

Before we get started, a word about Heart Rate:

The old motto, “no pain, no gain”, is a myth that has been overpowered by the benefits of exercising comfortably. A great deal of this success has been promoted by the use of heart rate monitors. With the proper use of a heart rate monitor, many people find that their usual choice of exercise intensity was either too high or too low and exercise is much more enjoyable by maintaining their heart rate in the desired benefit range.

To determine the benefit range in which you wish to train, you must first determine your Maximum Heart Rate. This can be accomplished by using the following formula: 220 minus your age. This will give you the Maximum Heart Rate (MHR) for someone of your age. To determine the effective heart rate range for specific goals you simply calculate a percentage your MHR. Your Heart rate training zone is 50% to 90% of your maximum heart rate. 60% of your MHR is the zone that burns fat while 80% is for strengthening the cardio vascular system. This 60% to 80% is the zone to stay in for maximum benefit.

For someone who is 40 years old their target heart rate zone is calculated:

$220 - 40 = 180$ (maximum heart rate)
 $180 \times .6 = 108$ beats per minute (60% of maximum)
 $180 \times .8 = 144$ beats per minute (80% of maximum)

So for a 40 year old the training zone would be 108 to 144 beats per minute.

If you enter your age during programming the console will perform this calculation automatically. Entering your age is used for the Heart Rate programs. After calculating your MHR you can decide upon which goal you would like to pursue.

The two most popular reasons for, or goals, of exercise are cardiovascular fitness (training for the heart and lungs) and weight control. The black columns on the chart above represent the MHR for a person whose age is listed at the bottom of each column. The training heart rate, for either cardiovascular fitness or weight loss, is represented by two different lines that cut diagonally through the chart. A definition of the lines' goal is in the bottom left-hand corner of the chart. If your goal is cardiovascular fitness or if it is weight loss, it can be achieved by training at 80% or 60%, respectively, of your MHR on a schedule approved by your physician. Consult your physician before participating in any exercise program.

With all SOLE Heart Rate elliptical machines you may use the heart rate monitor feature without using the Heart Rate program. This function can be used during manual mode or during any programs. The Heart Rate program automatically controls resistance at the pedals.

RATE OF PERCEIVED EXERTION

Heart rate is important but listening to your body also has a lot of advantages. There are more variables involved in how hard you should workout than just heart rate. Your stress level, physical health, emotional health, temperature, humidity, the time of day, the last time you ate and what you ate, all contribute to the intensity at which you should workout. If you listen to your body, it will tell you all of these things.

The rate of perceived exertion (RPE), also known as the Borg scale, was developed by Swedish physiologist G.A.V. Borg. This scale rates exercise intensity from 6 to 20 depending upon how you feel or the perception of your effort.

The scale is as follows:

Rating Perception of

Effort

6 Minimal

7 Very, very light

8 Very, very light +

9 Very light

10 Very light +

11 Fairly light

12 Comfortable

13 Somewhat hard

14 Somewhat hard +

15 Hard

16 Hard +

17 Very hard

18 Very hard +

19 Very, very hard

20 Maximal

You can get an approximate heart rate level for each rating by simply adding a zero to each rating. For example a rating of 12 will result in an approximate heart rate of 120 beats per minute. Your RPE will vary depending upon the factors discussed earlier. That is the major benefit of this type of training. If your body is strong and rested, you will feel strong and your pace will feel easier. When your body is in this condition, you are able to train harder and the RPE will support this. If you are feeling tired and sluggish, it is because your body needs a break. In this condition, your pace will feel harder. Again, this will show up in your RPE and you will train at the proper level for that day.

GENERAL MAINTENANCE

1. Wipe down all areas in the sweat path with a damp cloth after each workout.
2. If a squeak, thump, clicking or rough feeling develops the main cause is most likely one of two reasons:
 - I. The hardware was not sufficiently tightened during assembly. All bolts that were installed during assembly need to be tightened as much as possible. It may be necessary to use a larger wrench than the one provided if you cannot tighten the bolts sufficiently. I cannot stress this point enough; 90% of calls to the service department for noise issues can be traced to loose hardware or the rear rails being dirty.
 - II. Dirt build-up on the rear rails and polyurethane wheels are also a source of noise. Noise from build-up on the rails can cause a thumping sound that you would swear is coming from inside the main body of the machine because noise travels, and is amplified in the tubing of the frame. Clean the rails and wheels with a lint free cloth and rubbing alcohol. Stubborn build-up can be removed with your thumbnail or a non-metallic scraper, like the back edge of a plastic knife. After cleaning, apply a small amount of lubricant on the rails with your fingers or a lint free cloth. You only need a thin coat of lubrication, wipe off any excess.
3. If squeaks or other noises persist, check that the unit is properly leveled before calling the service department.

MANUFACTURER'S LIMITED WARRANTY

ELLIPTICAL WARRANTY Effective February 1, 2026

SOLE warrants all its elliptical parts for a period of time listed below from the date of retail sale, as determined by sale receipt, or in the absence of a sales receipt eighteen (18) months from the original factory shipping date. SOLE's responsibilities include providing new or remanufactured parts, at SOLE's option, and technical support to our independent dealers and servicing organizations. In the absence of a dealer or service organization, these warranties will be administered by SOLE directly to a consumer. The warranty period applies to the following components:

Frame Weldments	Lifetime
Parts	2 Years
Labor	1 Year
Cosmetic Items*	90 Days

**Cosmetic items including, but not limited to the following: grips, console overlays, and labels/decals.*

NORMAL RESPONSIBILITIES OF THE CONSUMER

This warranty applies only to products in ordinary household use, and the consumer is responsible for the items listed below:

1. The warranty registration card must be completed and returned to the address listed on the card within 10 days of the original purchase to validate the manufacturer's limited warranty or, if outside of the 10 day period, the warranty can be registered if you have proof of purchase (i.e. receipt, bank statement, credit card statement, or email order confirmation).
2. Proper use of the treadmill in accordance with the instructions provided in this manual, including general maintenance (i.e. belt tracking, belt tension, vacuuming under motor cover, and lubrication. See all components under General Maintenance section)
3. Proper installation in accordance with instructions provided with the elliptical and with all local electric codes.
4. Proper connection to a grounded power supply of sufficient voltage, replacement of blown fuses, repair of loose connections or defects in house wiring.
5. Expenses for making the elliptical accessible for servicing, including any item that was not part of the elliptical at the time it was shipped from the factory.
6. Damages to the elliptical finish during shipping, installation or following installation.
7. Routine maintenance of this unit as specified in this manual. (See All Components under General Maintenance).
8. Provide pictures or video of any issues via email as requested by the service technician. Assist with troubleshooting/diagnosing prior to a home visit.

EXCLUSIONS

This warranty does not cover the following:

1. CONSEQUENTIAL, COLLATERAL, OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN OR ANY IMPLIED WARRANTY.
Note: Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.
2. Service call reimbursement to the consumer. Service call reimbursement to the dealer that does not involve malfunction or defects in workmanship or material, for units that are beyond the warranty period, for units that are beyond the service call reimbursement period, for elliptical not requiring component replacement, or elliptical not in ordinary household use.
3. Damages caused by services performed by persons other than authorized SOLE service companies; use of parts other than original SOLE parts; Or external causes such as corrosion (RUST), discoloration of paint or plastic, alterations, modifications, abuse, misuse, accident, improper maintenance-(see general maintenance instructions section), inadequate power supply, natural disasters, or elemental damage (i.e. power surges, lightning storms, water damage, or fire damage.)
4. Products with original serial numbers that have been removed or altered.
5. Products that have been: sold, transferred, bartered, or given to a third party. (Warranties DO NOT transfer.)
6. Products that do not have a warranty registration card on file at SOLE. SOLE reserves the right to request proof of purchase if no warranty record exists for the product.
7. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES EXPRESSED OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.
8. Product use in any environment other than a residential setting.
9. Warranties outside of North America may vary. Sole USA warranty coverage is limited to the Continental United States. Sole USA does not sell or service equipment in Hawaii, Alaska, or outside of the United States. Please contact your local dealer for details regarding warranty availability in your region.
10. Warranty will be void if the unit is not in a climate-controlled, insulated environment. (Examples: Garage, outside, carport, etc)

SERVICE

Keep your bill of sale. Twelve (12) months from the date on the bill of sale or eighteen (18) months from the date of factory shipping as determined by the serial number establishes the labor warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. This written warranty gives you specific legal rights. You may also have other rights that vary from state to state. Service under this warranty must be obtained by following these steps, in order:

1. Contact your selling authorized SOLE dealer. OR
2. Submit all service requests including serial number, contact information and a brief description of the problem online at <http://www.soletreadmills.com/serviceparts.html>.
3. If there is a question as to where to obtain service, contact our service department at 866-780-7653.
4. If no local service is available, SOLE will repair or replace the parts, at SOLE's option, within the warranty period at no charge for parts. All transportation costs, both to our factory and upon return to the owner, are the responsibility of the owner. The owner is responsible for adequate packaging upon return to SOLE. SOLE is not responsible for damages that occur during shipping. Make all freight damage

claims with the appropriate freight carrier. DO NOT SHIP ANY UNIT TO OUR FACTORY WITHOUT A RETURN AUTHORIZATION NUMBER. All units arriving with- out a return authorization number will be refused.

5. .The service department assists in troubleshooting prior to sending a field technician. SOLE may request pictures and video via email of issues to help with diagnosing.

Before returning your Sole product to any retailer, or if you require any assistance with assembly or technical support please call us first for assistance at 866-780-7653. Thank you for your Sole purchase.
